A UNIQUE PARTNERSHIP

The Edmond J. Safra Family Lodge at the National Institutes of Health (NIH) offers a home-like place of respite for families and loved ones of adult patients who are receiving care at the NIH Clinical Center, the nation's premier clinical research hospital. Patients from across the nation and throughout the world visit NIH to participate as partners in medical discovery.

The Family Lodge marked its 10 Year Anniversary in 2015. The Foundation for the National Institutes of Health (FNIH) raised and coordinated funding for its original construction. The FNIH remains involved by fundraising to support the breakfast program, along with holiday and other special dinners and Tracy's Toy Box, which provides toys and children's items to younger guests.

The FNIH actively seeks support and accepts donations for the Family Lodge, including those from grateful families. Gifts of any size are vital to maintaining this much-needed refuge for family members and caregivers of patients receiving treatment.

All donations are fully tax-deductible. Donors who wish to name a particular space will be acknowledged with a plaque at the assigned site.
